

ISO 27001 CONSULTING

WHAT IS ISO 27001?

ISO/IEC 27001 is an information security management system (ISMS) standard published in October 2005 by the International Organization for Standardization (ISO). ISO/IEC 27001 is the updated version of the world renowned British Standard for Information Security Management Systems, BS 7799-2:2002. The controls address everything from physical/data access control to business continuity management.

Organizations utilizing ISO 27001 as the baseline for their Information Security Management System can become registered, thus demonstrating they have met the requirements of the ISO standard. This standard is also a great way to help satisfy various forms of regulatory compliance and maintain an effective security posture.

OUR PRACTICE

Unlike the staff of some of the large auditing organizations that have begun offering ISO pre-registration consulting, our consultants have an average of 50 years experience in technical security consulting. Each member of our team is CISSP and NSA-IAM certified, in addition to being a BSI Certified ISMS Auditor.

Our teams are geographically centered around our 12 regional US offices, and are available for an initial consultation free of charge. Our rates are competitive with industry standards, and available upon request for quote.

PAST PERFORMANCE

Idea provides security consulting services to many industry verticals, to include:

- **Financial Services**
- **Healthcare**
- **Manufacturing**
- **Retail**
- **Energy**

ABOUT US

Idea Integration, headquartered in Jacksonville, Florida, is an IT consulting and technology solutions firm specializing in application development, digital data management, business intelligence, infrastructure, information security, and interactive marketing. Idea serves clients throughout the United States with high value application consulting services.

As a brand of Idea Integration, Idea Information Security is a leading provider in security consulting services. Our practice offers security solutions to organizations of all verticals that are tailored around regulatory compliance and best practices. We offer complete security solutions pertaining to HIPAA, Sarbanes Oxley, GLBA and the Payment Card Industry.

When you work with Idea Integration professionals—whether it's one person or an entire team selected from our nationwide organization—you also have the collective resources and commitment of MPS Group, a Fortune 1000 billion-dollar international services firm.

At Idea, we judge our success by our high number of repeat customers. We execute. And we deliver on our promises. Just ask our clients.
