

PAYMENT CARD INDUSTRY (PCI) CONSULTING

TRUE SECURITY PROFESSIONALS + QUALITY SOLUTIONS = SECURE ENTERPRISE

COMPANY OVERVIEW

Idea Integration is a professional IT consulting and technology solutions firm specializing in application development, digital data management, business intelligence, infrastructure, security and interactive marketing. Idea serves clients throughout the United States with high value application consulting services.

With experience spanning two decades, our creative vision enables us to excel in crafting targeted, powerful solutions to meet our clients' business challenges. We develop and deliver those solutions rapidly and efficiently, and our solutions produce immediate, measurable results. Idea Integration has the breadth of clients and experience to deliver and implement large-scale applications and solutions.

With offices across the U.S., we serve top players as well as up-and-comers in a variety of industries, such as government, healthcare, technology, communications, utilities/energy, financial services, pharmaceuticals, and others. We also possess the backing of the professional resources and collective commitment of the MPS Group, a Fortune 1000 US based international services firm.

PRACTICE OVERVIEW

Security has become a major concern for companies throughout the world. New vulnerabilities are discovered on a daily basis and are being used by external as well as internal intruders. This malicious activity can severely affect an organization's business operations and cost millions of dollars to rectify. In today's computing environment, every company needs to engage in a comprehensive security initiative to minimize risk. Idea Integration consultants have over 50 years of combined experience in the security arena. Our

security experts hold the Certified Information Systems Security Professional (CISSP) designation along with other certifications from the International Information Systems Security Certification Consortium (ISC), the National Security Agency (NSA), and the PCI Security Standard's Council.

PCI SECURITY STANDARDS COUNCIL

The PCI Security Standards Council is an independent industry standards body providing oversight of the development and management of Payment Card Industry Security Standards on a global basis. The founding multi-national acceptance brand members are:

- American Express
- Discover Financial Services
- JCB
- MasterCard Worldwide
- Visa International

PCI DATA SECURITY STANDARD (DSS) 1.1

The PCI DSS version 1.1, a set of comprehensive requirements for enhancing payment account data security, was developed by the founding payment brands of the PCI Security Standards Council, including American Express, Discover Financial Services, JCB, MasterCard Worldwide and Visa International, to help facilitate the broad adoption of consistent data security measures on a global basis.

The PCI DSS is a multifaceted security standard that includes requirements for security management, policies, procedures, network architecture, software design and other critical protective measures. This comprehensive standard is intended to help organizations proactively protect customer account data.

IDEA INFORMATION SECURITY – A PCI QUALIFIED SECURITY ASSESSOR COMPANY (QSAC)

As a Qualified Security Assessor by the PCI Security Standards Council, Idea Information Security is part of a select group of firms qualified to provide merchants and services providers in the Continental United States with consulting on the PCI Data Security Standard (DSS) and necessary reporting on compliance.

When you work with Idea Integration professionals—whether it's one person or an entire team selected from our nationwide organization—you also have the collective resources and commitment of MPS Group, a Fortune 1000 billion-dollar international services firm.

At Idea, we judge our success by our high number of repeat customers. We execute. And we deliver on our promises. Just ask our clients.

PAST PERFORMANCE

“Idea Integration has exceeded our expectations in all of the work they have performed for us at Collier County. They are sensitive to timelines and deadlines and have been flexible in providing their services to meet our schedule. Their staff is experienced and knowledgeable in all areas relating to Computer Security. We were impressed when they discovered a potential e-mail vulnerability on the first day of a security assessment they were performing for us. We believe they are one of the premier computer security firms in the country and would recommend their services to anyone.”

—**Jeff Bolen CISSP CHSP NSA-IAM/IEM**
Information Security Manager
Collier County Government
Naples, Florida

“We are very impressed with Idea’s professionalism and depth of knowledge. Having a small security team that has broad responsibilities, Idea has been able to compliment our internal efforts.”

—**Pete Meinert**
Director of Security and Business Recovery
Nelnet Diversified Solutions
Aurora, Colorado

“Idea Information Security has provided me with superb service on numerous engagements. They have some of the sharpest minds in the security consulting arena.”

—**Jason Clark**
Director of Information Security
Global Fortune 500 Company
